HIGH PERFORMANCE, APPLIED

“That service is just flaky.”

A label makes a problem permanent.
Behaviour can be fixed.

SWIPE ►

01

PEOPLE

Labels describe character

Call someone disrespectful and you've judged them. Say their lateness makes you feel disrespected, and they can fix it.

Example from The High Performance Podcast

02

REVIEWS

Blame is a label too

“The engineer was careless” ends the review. “The deploy skipped the canary” starts the fix.

03

SYSTEMS

Describe how it fails

Call a service flaky and you've given it a personality. Say it fails on a cold cache and you've given someone a ticket.
